Client or Contractor shall mean VT Milcom, the party soliciting the work and/or placing the order, as the Owner or Prime Contractor. Goods or Services shall mean the product or service for which the seller has placed an order with the client.

Services or Construction shall mean that work or task which the Subcontractor has agreed to perform for the Client or Contractor.

Agreement or Subcontract shall mean the cover document, proposal, purchase order, contract, subcontract, or any other document written or issued that specifically refers to this Subcontract Terms and Conditions, amendments, exhibits, attachments or other such documents identified as part of this Subcontract, all of which are incorporated herein by reference, which shall govern the performance of the Subcontractor.

Party(ies) shall mean the Contractor and Subcontractor (singularly or collectively), or Client and Seller (singularly or collectively).

GENERAL PROVISIONS – The Subcontract governs the sale by Subcontractor of equipment, services (including design and installation), construction, or materials and any associated proprietary programs and related information included with the equipment at the time of sale and listed on the face of the Subcontract to Contractor. This Subcontract integrates, merges, and supersedes any prior offers, negotiations, and agreements concerning the subject matter hereof and constitutes the entire agreement between the parties. The Parties object to and reject additional or different provisions that may appear in any document furnished by the other Party unless such provision is expressly agreed to in writing and signed by both Parties. Subcontractor's acceptance of or payment for material shipped or services performed shall constitute acceptance of such material or service subject to the provisions herein only. Subcontractor's Proposals, including all clarifications and assumptions, are hereby incorporated by reference with the same force and effect as if they were given in full text. If there is a conflict between any terms & conditions set forth in the Subcontract, Agreement, Purchase Order, Statement of Requirements, Statement of Work and the Proposal referenced herein, the Proposal assumptions and clarifications shall take precedence. The headings used in this Subcontract are for the convenience of the Parties and shall not define, limit, or describe the scope or the intent of the provisions of this Subcontract.

TERMS AND CONDITIONS OF PROPOSAL – Proposals are valid for sixty (60) calendar days from date of submission, unless otherwise required by solicitation.

A mutually agreeable, bilaterally executed contract or purchase order shall be required prior to the start of any Work. The Notice to Proceed or Letter Subcontract included in the Proposal can be submitted by the Contractor to initiate work if signed and returned as indicated in the Proposal documents.

The Proposal document and all Terms and Conditions contained within, including any assumptions and exceptions, shall be incorporated in its entirety into any resultant contract or purchase order issued for the project.

Subcontractor will require a minimum three (3) week lead time for materials following receipt and acceptance of a mutually agreed upon contract or purchase order, unless otherwise specified in the Proposal.

SCHEDULING – Pricing is based upon a single mobilization and demobilization of the installation crew. The costs of any additional mobilization and demobilization of installation crews due to schedule changes outside the control of the Subcontractor shall be borne by the Subcontractor. Any compression or acceleration of the schedule resulting in additional costs to complete shall require an equitable adjustment to the contract price and a written modification of the original contract.

SCOPE OF PERFORMANCE – Subcontractor shall furnish all services and products, including labor, materials, other items and facilities necessary to perform the Work in accordance with the requirements set forth in this Subcontract, including, but not limited to, the Statement and Schedule of Work, and any Task Order ("Order") issued pursuant to this Subcontract.

DELIVERY/TASK ORDERS – All Delivery/Task Orders issued hereunder are subject to the Terms and Conditions of this Subcontract. The Delivery/Task Order type will be based on the degree, scope, and timing of the responsibility assumed by Subcontractor for the costs of performance. Failure to comply with the schedule, including delays with its suppliers but excluding Force Majeure delays, may constitute a material breach of the Subcontract and/or Delivery/Task Order and could result in Contractor exercising its contractual rights, including termination. If delays occur, the delaying party shall notify the other party in order to mutually agree on an appropriate course of action.

Subcontractor will provide to Contractor sufficient documentation as may be required to establish a fair and reasonable basis for the amount(s) proposed. Contractor and Subcontractor will negotiate and establish the total amount for each Delivery/Task Order issued under this Subcontract. Subcontractor shall provide all necessary supplies and services to accomplish the requirements of the Statement of Work incorporated in each Delivery/Task Order. Contractor will pay Subcontractor as specified in individual Delivery/Task Orders for work authorized under the Delivery/Task Orders. Payments will be made in accordance with Federal Acquisition Regulation ("FAR") 52.232-1 and any other FAR clauses appropriate for the type of Delivery/Task Order issued, if applicable, or according with the Payment terms specified in the Subcontract.

DATES – This Subcontract shall be binding and deemed effective when executed by both parties whose signature is provided for on the signature pages hereof (the "Effective Date").

All dates are intended to be calendar dates throughout this Subcontract unless otherwise specified. The Period of Performance, providing mobilization and demobilization dates, final submittal due dates, etc., will be clearly defined in each applicable Subcontract.

ELECTRONIC CONTRACTING - The Parties agree that if this Subcontract is transmitted electronically, neither Party shall contest the validity of this Subcontract or any acknowledgement thereof on the basis that this Subcontract or acknowledgement contains an electronic signature.

ACCEPTANCE OF MATERIAL/SERVICE – Acceptance of Material occurs (1) at the time Material is delivered to and received for the location shown on the Order; and (2) Contractor has had a reasonable opportunity to inspect Material for conformance with the terms of the Subcontract, acceptance of which shall not be more than thirty (30) days from receipt. Materials will not be accepted if either the Contractor or Owner finds that the material or materials are not in conformance with the terms of the Subcontract. Acceptance shall not be deemed to cover manufacturer defects which were not obvious at the time of inspection. In no event shall Contractor be liable to Subcontractor for consequential damages resulting from any defects or deficiencies identified in accepted items. Acceptance of Services occurs after the service has been successfully performed, tested, and signed off by an authorized Subcontractor employee who has been appointed such authority, which shall not be more than fifteen (15) days from service completion.

WARRANTY – Subcontractor warrants that Subcontractor and its employees shall, in performing Work hereunder, exercise the degree of skill, care and diligence consistent with best commercial practices. Subcontractor shall perform Work in a good and workmanlike manner and in compliance with any and all requirements specified in the Statement and Schedule of Work or otherwise provided by Contractor. Subcontractor also warrants that any products, material or equipment supplied by Subcontractor are merchantable and comply with any and all requirements identified or provided by Contractor. Subcontractor shall provide products, material and equipment that are free from defects, whether patent or latent, in design, material and workmanship, and are suitable for the particular use for which the items are purchased. Subcontractor shall provide goods that are new and not refurbished, unless purchase of used or refurbished goods is expressly stated in the Statement of Work and/or Schedule of Work.

Subcontractor further warrants that all products, material and equipment are free and clear of all liens and encumbrances, and that Subcontractor has secured for Contractor the unrestricted right to own, sell or use such items. Subcontractor shall transfer all manufacturer or vendor warranties associated with all products, material, equipment and any other goods supplied to Contractor and/or such entity as designated by Contractor. For purposes of this Subcontract, products, material or equipment supplied by Subcontractor shall include any documentation, such as quality control or test records or certificates of compliance that may be specified or are customarily furnished in the trade.

Subcontractor, without cost to Contractor, shall promptly do all things necessary to correct any breach of the above warranties in a manner satisfactory to Contractor. If Subcontractor is unable or refuses to repair or replace any defective item or nonconforming goods, as Contractor may require, then Contractor may, by contract or otherwise, repair or replace such defective item or nonconforming goods and back-charge Subcontractor for the excess cost. Contractor may, at its sole option, elect to retain nonconforming goods, in which event an equitable adjustment shall be made in the price thereof.

Subcontractor warrants that all goods delivered shall be free from all defects and shall conform to all applicable specifications and any Statement of Work and/or Schedule of Work signed by an Authorized Representative of Contractor for a period of twelve (12) months from the date of acceptance by Contractor or for the period provided in Subcontractor's standard warranty covering the goods, whichever is longer. Subcontractor hereby agrees that it will make spare parts available for a period of seven (7) years from the date of shipment at Subcontractor's then current price, less applicable discounts. All warranties shall be construed as conditions as well as warranties and shall not be exclusive.

This warranty supersedes any lesser warranty, whether stated or implied, which may be contained in proposals, confirmations, or other documentation delivered to Contractor by Subcontractor following the issuance of this Subcontract, regardless of whether the same may be accepted or otherwise approved by Contractor, unless a lesser warranty is specifically identified and agreed to in writing as part of this Subcontract.

Material warranty is provided by component manufacturers and is effective upon receipt by the Contractor. Subcontractor shall provide one year labor warranty for the repair or replacement of materials due to manufacture defect or system failure resulting from this installation.

Subcontractor shall have no liability under warranty for goods that have been abused or misused by Contractor or third parties.

INSPECTION/ACCEPTANCE – Subcontractor shall only tender for acceptance those items that conform to the requirements of this Subcontract. Contractor and its Client reserve the right to inspect or test, at the final destination, any supplies or services that have been tendered for acceptance. Contractor may require repair or replacement of

nonconforming supplies or re-performance of nonconforming services at no increase to the Subcontract price.

Contractor must exercise its post-acceptance rights (i) within a reasonable time after the defect was discovered or should have been discovered, and (ii) before any substantial change occurs in the condition of the item, unless the change is due to a defect in the item.

LIMITATION OF LIABILITY – Subcontractor will not be responsible to Contractor for consequential, exemplary or incidental damages (such as loss of profit or employee's time) regardless of the reason.

INSTALLATION AND SERVICE – Subcontractor will install equipment and provide any remedial and preventive maintenance which is required to keep the equipment in good operating condition during the warranty period, unless otherwise provided for in the Subcontract. Installation and any remedial and preventive maintenance will be performed by Subcontractor or its authorized designee during normal business hours, unless different hours have been mutually agreed upon in advance and designated within the Subcontract.

SERVICES PERFORMED ON-SITE – Subcontractor shall coordinate in advance with the Contractor to access the Contractor's premises. Upon entry onto Contractor's or Customer's premises, Subcontractor shall comply with all policies, procedures, rules and regulations applicable to such premises, if such information has been provided to the Subcontractor in writing in advance. Furnished Property shall be used only for the performance of this Subcontract. Subcontractor shall manage, maintain, and preserve Furnished Property in accordance with applicable law and good commercial practice. Title to Furnished Property shall at all times remain with the Contractor and, except for reasonable wear and tear, the Subcontractor shall be responsible for, and shall promptly notify to Contractor of any loss or damage to the Furnished Property. Contractor shall provide Notice to Subcontractor of any damaged or missing property.

Upon delivery of the services, Subcontractor shall leave the premises clean and free of all tools, equipment, waste materials and rubbish, which are exclusive to the responsibilities of the Subcontractor's work only and not related to any other party's work. Contractor shall provide Subcontractor written notice of Subcontractor's failure to comply with its obligation to keep its work areas clean and free of waste material at least forty-eight (48) hours prior to the time when Contractor performed cleanup work for the Subcontractor.

INSURANCE – Insurance coverage shall be maintained in accordance with Contractor's Insurance Requirements, incorporated herein by reference. Within a specified number of business days following the execution of this Subcontract, Subcontractor shall furnish to Contractor an acceptable Certificate of Insurance evidencing compliance with Contractor's requirements. Subcontractor shall maintain copies of all such policies and, upon request, shall also provide copies of insurance policies to Contractor for review within ten (10) days of commencement of Work. Any insurance coverage required beyond the insurance included in this Subcontract shall be identified in advance by the Contractor prior to the Subcontractor submitting cost and pricing. Subcontractor is required to provide 30-days written notice of any change in or cancellation to its insurance coverage or that of any approved lower tier subcontractor. If Subcontractor fails to provide or maintain the required insurance, or if the insurance carrier fails, for whatever reason, to honor any claims made against the insurance, Subcontractor shall be fully and individually liable for any such claims.

Prior to commencement of work, Subcontractor shall disclose any disputes or litigation with its present insurance carrier(s). If, in the opinion of Contractor, any such dispute or litigation is potentially harmful to the Work, or to the protection of Contractor or its client, Contractor has the right to terminate this Subcontract.

Unless otherwise specified, prices include all applicable federal, state and local taxes, duties, tariffs, and similar fees imposed by any government, all of which shall be listed separately on the invoice. The preferred payment types are check, electronic funds transfer (EFT) or money order. Payment shall be deemed to have been made as of the date of mailing Contractor's payment or EFT. If payment is made via credit card, a nominal fee will be added to the total invoice. When returning disapproved or adjusted invoice for payment, Contractor shall give written notice to Subcontractor, identifying the specific reasons to Subcontractor for correction and re-submittal, without loss of discount privileges, within five (5) business days of Subcontractor's submittal to Contractor; otherwise, invoice shall be considered accepted. Any disputed amounts on an invoice are to be short paid. Authorized Representatives of both Parties shall work together to resolve such discrepancies, with a resolution effected within thirty (30) calendar days. In the event of nonpayment from the Owner is solely due to negligence of the Contractor, Subcontractor shall be entitled to receive payment for work performed.

INVOICING – Unless otherwise specified in the Subcontract, Subcontractor shall submit invoices only for conforming items, material, or goods actually delivered or for conforming services actually performed which are accepted by Contractor. Invoices shall comply with invoicing instructions in the Subcontract. At a minimum, each invoice shall include a unique identifying number; date; the Subcontract number; Subcontract item number; item description; part number (if applicable); and any applicable U.S. sales tax to be collected which shall not be broken out separately but inclusive.

BONDS – If instructed by Contractor in writing, whether before commencement of Services or at any time prior to completion and acceptance of Services, Subcontractor shall provide a Performance Bond and a Payment Bond in form and with corporate surety satisfactory to Contractor. Any surety furnishing a bond hereunder shall be bound by the terms of the Subcontract. Contractor may terminate this Subcontract for default or exercise the rights provided in the TERMINATION clause of the Terms and Conditions if Subcontractor should fail to provide such bond when requested.

Applicable indirect costs shall be included in Subcontractor's quote as a fixed price amount that is restricted by the travel ceiling for the period of performance. Subcontractor's failure to identify additional indirect cost elements shall result in those costs being deemed as mutually agreed upon as unallowable during the performance of the Delivery/Task Order. Travel not originally proposed in Subcontractor's quote, travel to a different site, and overseas travel must be approved in advance by the Contractor Task Manager and incorporated into the Statement of Work by a modification to the Delivery/Task Order and mutually signed by both Parties prior to the travel being executed.

OTHER DIRECT COST (ODC) – Travel ODC is covered above. Any other ODC authorized within a Delivery/Task Order and issued pursuant to this Subcontract shall be included and identified in Subcontractor's

FORCE MAJEURE – Neither Party will be liable to the other for delays in performing any obligations under the Subcontract due to circumstances beyond its reasonable control, including but not limited to revolts, insurrections, riots, wars, acts of enemies, national emergency, strikes, floods, earthquake, embargo, inability to secure materials or transportation, and acts of God, and other events beyond the reasonable control of the parties caused by nature or governmental authorities. Should any Force Majeure circumstance cause Subcontractor to incur additional costs and/or affect any due dates, an equitable adjustment via modification shall be negotiated between the parties and upon mutual Subcontract, bilaterally executed by the Authorized Representatives listed herein. The Contractor shall make every effort to obtain a stop work notice for Force Majeure events, which will flow-down to the Subcontractor.

All sections and subsections of this Subcontract are severable, and the unenforceability or invalidity of any of the sections or subsections of this Subcontract shall not affect the validity or enforceability of the remaining sections or subsections of this Subcontract, but such remaining sections or subsections shall be interpreted and construed in such a manner as to carry out full intention of the Parties.

DISPUTE RESOLUTION – Contractor and Subcontractor shall endeavor to resolve any controversy, claim or dispute arising out of or relating to the Subcontract by negotiation. Any claim that is not resolved by negotiation within thirty (30) days of notification or such other period to which the Parties agree shall be settled by arbitration administered by the American Arbitration Association (AAA) under its Commercial (or Construction, if applicable) Arbitration Rules, and judgment on the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. The hearing locale will be held in the AAA's New York Headquarters in New York City. Each Party shall bear its own expenses and an equal share of the expenses of the arbitrator and the fees of the arbitration; provided, however, the arbitrator may award a Party's expenses related to the arbitration to the prevailing Party. use reasonable efforts to replace such Key Personnel within ten (10) days of removal. If Subcontractor reasonably determines and provides written notification to Contractor, prior to the expiration of this ten (10) day period that, due to the difficulty in obtaining equivalent subject matter expertise, it will take longer than ten (10) days to find a suitable replacement, Contractor will provide a reasonable extension. Such written notification shall include a detailed description of the specific actions previously taken and planned to be taken by Subcontractor to locate a suitable replacement. The length of any such extension is within Contractor's sole discretion. If the Task/Delivery Order is performed by Subcontractor on a Firm Fixed Price basis, the failure to replace such Key Personnel shall not be subject to a claim of default or termination so long as Subcontractor exercises reasonable efforts to find the replacement and continues to meet the requirements of the Task/Delivery Order. Subcontractor shall ensure the reasonable availability of the requisite personnel to support Contractor in briefings, presentations, negotiations and/or discussions with Customer personnel throughout the term of this Subcontract and/or any Task/Delivery Order(s) issued hereunder. This limitation does not apply to damages resulting from termination of this Subcontract due to default of either Party. Notwithstanding the foregoing, the amount of damages recoverable against a party and any of its affiliates for any claim will not exceed, in the aggregate, the amount paid or owed for the specific item of product or service giving rise to such damages. The essential purpose of this provision is to limit the potential liability of the Parties arising out of this Subcontract, except for damages imposed by the Government, to the extent that such damages are caused by the subcontractor's work, either partially or fully, with damages prorated accordingly.
